JUDGING METHOD

Judging is to take place remotely (online) by each jury member. All judges shall use their own Colour calibrated equipment capable of displaying submitted images at exactly 100% of their resolution.

The Acceptance target range will not exceed 30% per section.

No image may receive more than one individual award in a section, but in circuits an image may receive an award in different salon sections. Only one award can be given to an entrant in any one section.

For sections with more than 230 images, no more than 10% of the acceptances can receive medals/awards

EXHIBITION REQUIREMENTS

IMAGE AND ENTRY REQUIREMENTS: This exhibition is open to anyone; however, an entry may be rejected when the exhibition chair believes the entry does not conform to exhibition rules and these ES-COE.

Membership in any photographic organization is not required.

Neither awards nor acceptances will be granted to any entrant who is on the PSA Penalties List for Ethics Violation. Entry fees are not refundable in these circumstances.

PSA Star Ratings: To receive proper star ratings credit from PSA, entrants must provide their names and country exactly the same way in each exhibition. Aliases are not permitted. Please contact PSA in the event of a name change or relocation to another country. Using one's name differently in different exhibitions exposes the entrant to the risk that many of their acceptances may not be recognized in PSA Star records.

Reproduction: The entrant permits the sponsors to reproduce all or part of the entered material free of charge for publication and/or display in media related to the exhibition. This may include low resolution posting on a website. PSA may request specific permission from entrants to reproduce entered images in its educational materials. The terms of that permission will be mutually agreed upon between the entrant and PSA except in the circumstances where the entered image is found to breach the PSA Ethics Policy. In those circumstances, the image may be reproduced by PSA without the entrant's further permission, for educational purposes, or to illustrate serious exhibition rule violations. For those reproductions, the entrant's name will be withheld.

Entries will not be accepted from entrants who indicate that their images may not be reproduced in materials related to the exhibition. The exhibition assumes no liability of any misuse of copyright.

Re-use of accepted images: Any image that has been accepted in this exhibition, past or present, may not be entered again in the same division star ratings class in any future instances of this exhibition. It may, of course, be entered in any other PSA recognized exhibitions but **must always have the same title**. Re-titling in another language is not allowed.

Entry: An entry consists of up to and including four (4) images entered by a single entrant into the same section. The same image can receive no more than a total of twenty (20) acceptances (per star path). Identical or similar Images shall not be allowed in the same section or different sections of the same exhibition as determined by the judges or exhibition chair. Similar images are those which are practically equivalent, as defined on this page: <https://psa-services.org/pdf/Practical-Equivalence.pdf> . When a group of similar images is uploaded by the entrant, all similar images in all sections **will** be disqualified. Be advised: while similar images may be entered in different exhibitions, these images and acceptances may be disallowed by the separate review process associated with applications for stars, diamonds and galaxies. To avoid disappointment, do not enter images that are practically equivalent.

Titles: Each image must have a unique title that relates to the content of the image. That unique title must be used for entry of that image into any and all PSA-recognized exhibitions. Titles must be 35 characters or fewer. No titles may be visible to the judges, and nothing in the image may identify the entrant. Titles may not include file extensions such as .jpg or .jpeg (or any other camera capture file names such as IMG_xxxx). Titles may not consist of personal identifiers possibly augmented by a number; and may not include words such as “untitled” or “no title”. Titles may not consist solely of numbers unless those numbers are prominently contained within the image, such as a contestant number in a race. When entering titles, exhibitors may use Latin1 or Latin2 character sets (ISO-8859-1 or ISO-8859-2) which allow diacritical marks (é, ñ, ü, à, è, í, etc.). While text written in non-Latin writing systems (Hanzi, Cyrillic, Arabic, Devanagari, etc) might be accepted by exhibition software, this practice is discouraged because it may yield unpredictable results in galleries, catalogs and may be rejected in Star applications.

Color and Monochrome: Color and monochrome images from the same capture that share substantial pictorial content in common will be considered the same image and must be given the same title.

DATA PROTECTION

By entering this exhibition you are explicitly consenting to the personal details you have supplied, including physical addresses and email addresses being held, processed and used by the exhibition chair for purposes associated with this exhibition. You also explicitly consent to such information being sent to organizations that have accorded official recognition, patronage or accreditation to this exhibition. You acknowledge, agree and accept that by entering this exhibition your participation status which includes your first and last name, name of the country used during

You also agree and accept the policy regarding noncompliance to the rules of PSA.

SUBJECT MATTER AND SECTION DEFINITIONS

Image creation and ownership

In all sections of the exhibition, images must originate as photographs made by the entrant. They may not incorporate identifiable images produced by anyone else (for example: clip art, replacement skies, or stock images). Images created in whole or in part by image creation software (frequently called 'AI' images) are not allowed. Editing or alteration of images is permitted within the limits specified in the relevant section definitions that are available here <https://psa-photo.org/page/division-definitions> Any person submitting or attempting to submit a totally AI generated image that does not begin with a light capture from the maker to any Photographic Society of America exhibition, social media, event, or publication, other than for editorial purposes, shall be prohibited from PSA for a period of from 3 years to Life.

Statement on Subject Matter - applicable to all sections

The fundamental rule that must be observed at all times and **applies to all sections** offered in exhibitions with PSA recognition is that the welfare of living creatures is more important than any photograph. This means that practices such as baiting of subjects with a living creature and removal of birds from nests, for the purpose of obtaining a photograph, are highly unethical, and such photographs are not allowed in any exhibition with PSA recognition. Under no circumstances may a living creature be placed in a situation where it will be killed, injured or stressed for the purpose of obtaining a photograph. Images that show live creatures being fed to captive animals, birds or reptiles are not permitted under any circumstances.

There are also concerns about the use of aerial photography, using drones, helicopters, or low flying aircraft. These should not cause any interference with other individuals or animals which causes a disturbance in their normal activity or disrupts the way any individual or animal interacts with their environment. Entrants in PSA recognized exhibitions should comply with all relevant laws and regulations associated with aerial photography in the country in which the image was taken.

Entry into PSA recognized exhibitions is conditional on accepting the above policies. The images must comply with the division and section definitions listed on the PSA website and other conditions. Images that do not comply will be disqualified by the judges.

Photo Travel Division Definition

A Photo Travel image is a portrayal of the real world we live in, as it is found naturally. There are no geographic limitations.

Content Guidelines:

1. If the image is predominantly or exclusively a land, sea or cityscape, these “scapes” must include characteristic and distinctive physical features, although it is not necessary that the image identify the exact location.
2. Images that predominantly or exclusively depict people and their activities must illustrate a distinctive culture of a country, region, or continent.
3. Images that predominantly or exclusively depict animal populations are allowed if the animals are in their native environment and are characteristic of that country, region, or continent.
4. Portraits or other close-ups of people or objects, in addition to meeting the above paragraphs as applicable, must include elements depicting some of the surrounding environment to make it obvious that the image was not taken in a studio setting. Images from events or activities arranged for photography, or of subjects directed or hired for photography, are **not allowed**.
5. Time exposures are allowed, if they do not dominate the image as a special effect (star trails, for example, are a dominating effect).
6. Highly distorted images such as those produced by fisheye lenses are **not allowed**.

Editing Guidelines:

Processing or editing must be limited to making the image look as close to the original scene as possible, except that conversion to grayscale monochrome **is allowed**.

Allowed Editing Techniques:

- Cropping, straightening and perspective correction
- Removal or correction of elements added by the camera or lens, such as dust spots, noise, chromatic aberration and lens distortion
- Global and selective adjustments such as brightness, hue, saturation and contrast to restore the appearance of the original scene
- Complete conversion of color images to grayscale monochrome
- Blending of multiple images of the same subject and combining them in camera or with software (exposure blending or focus stacking)
- Image stitching – combining multiple images with overlapping fields of view that are taken consecutively (panoramas)

Editing Techniques That Are Not Allowed:

- Removing, adding to, moving or changing any part of an image, except for cropping and straightening.

- Adding a vignette during processing.
- Blurring parts of the image during processing to hide elements in the original scene.
- Darkening parts of the image during processing to hide elements in the original scene.
- All conversions other than to complete grayscale monochrome.
- Conversion of parts of an image to monochrome, or partial toning, desaturation or over-saturation of color.

PSA RULES

Non-Compliance

See the PSA Ethics Policy at <https://psa-photo.org/page/ethical-practices> .

See the PSA statement on Subject Matter, Statement on Artificial Intelligence, and Image Creation and Authorship at <https://psa-photo.org/page/division-definitions>

If an entrant submits an image that appears to be non-compliant, the chair or judges may request the unedited or raw file of the submitted image to verify compliance, including authorship. For composite images all files are required. Such entries may be referred to PSA for further investigation of possible ethics violations. Entrants who do not respond to this request or who do not cooperate with the investigation team may be penalized.

PSA retains the right to investigate all complaints, impose penalties if deemed necessary, void the acceptances of any image found to violate the PSA rules, and add the entrant's name to the PSA Penalty List which is shared with PSA and FIAP chairs. Entrants automatically agree to these terms by entering the Exhibition.

Agents and other indirect submissions:

- **Agencies** and third-party entities who process or submit images on an entrant's behalf must register with Exhibition Services. This is to ensure both the agency, and the entrants are aware of the rules prior to submitting images. **Agencies who frequently submit non-compliant images may also be penalized.**

- **Entrants** will be held responsible for adhering to the entry rules **and will be subject to penalties for any violations** to these Conditions of Entry or to PSA's Statement of Ethics, regardless of whether they submit images through a third party or not.
